Islamabad • 00923116066688 • danishkhan@protonmail.com • linkedin.com/in/muhammad-danish-khan-5033318a

## Software Engineer

Experienced Software Engineer with over 9 years in the industry, specializing in backend development and automation. Skilled in Core Java, Spring Framework, Spring Boot, Spring Data, Hibernate, REST APIs, Microservices, Kafka, Redis, and Liquibase. Nearly 5 years of hands-on experience with Docker, Kubernetes, Helm Charts, and CI/CD using GitHub Actions. Proficient in Golang and experienced in scripting and automation using Python and Bash. Additional experience with AWS Lambda, Blue Prism automation and PostgreSQL. Known for quickly learning new technologies, independent problem-solving, and maintaining a positive, dedicated attitude in challenging environments.

## WORK EXPERIENCE

### Emumba Pvt Ltd • 2023 - Present

Islamabad, Pakistan

#### Senior Software Engineer

- Developed a prototype call center using Conversational AI (AWS Connect, AWS Lex, Lambda), laying the groundwork for future production-ready systems.
- Quickly understood and adopted a client-devised framework, effectively training and supporting the team in its use.
- Built a demo application on this framework, which became the base for multiple new services.
- Led the migration of several services from Golang to the new framework, including bug fixing and feature enhancements in both Golang and Java.
- Developed new microservices in Spring Boot, leveraging the standardized framework.
- Automated service deployment and monitoring using Bash scripts on user machines.
- Wrote Python scripts for database migration, deployment automation, and service monitoring.
- Enabled Live Code Coverage using JaCoCo for Java Services.
- Improved the startup time of a Java service from 4–6 minutes to just 12–25 seconds, even with resource constraints.
- Owned and led a cross-functional EPIC from design phase to implementation and successful deployment.

### SI Paradigm Diagnostic Information Pvt Ltd • 2019 - 2023

Islamabad, Pakistan

#### Senior Java Developer

- Developed, maintained, and provided L2/L3 support for a Java EE-based LIS application.
- Recommended code changes and a branching strategy to improve the existing LIS application.
- Improved the codebase by identifying and resolving memory leaks, bugs, and code smells.
- Integrated third-party tools such as Zoho for ticketing within the LIS application.
- Designed and implemented RESTful microservices.
- Developed CI/CD scripts with GitHub Actions to automate deployment processes.
- Configured Kafka and scripted Kafka mirroring across different regions.
- Wrote Dockerfiles to containerize services and authored Kubernetes YAML files to orchestrate them on the cluster, later converting these to Helm Charts for streamlined deployment.

## EDUCATION

### B.Sc. Software Engineering

University of Engineering and Technology, Peshawar  
Peshawar, Pakistan  
GPA: 3.01  
2015

## SKILLS

Java, Spring, SpringBoot, JPA, Hibernate, Microservice, Golang, Python, Bash Scripting, Kafka, Redis, Docker, Kubernetes, Helm Charts, CI/CD (Github Actions), Postgresql, AWS Lambda, Aws Connect, Aws Lex Builder, Blueprism

## CERTIFICATIONS

### Certified Kubernetes Application Developer 2022

The Cloud Native Computing Foundation (CNCF)

### Blue Prism Certified Developer

2019

Blue Prism

### Advance RPA Professional

2019

Automation Anywhere

## AWARDS & SCHOLARSHIPS

### Tech Trailblazer

2024

Emumba

### Employee Of The Year

2019

IBM

**IBM • 2017 - 2019**

**Islamabad, Pakistan**

**Application Developer**

- Developed and maintained Struts2-based incident management application.
- Identified production and nonproduction issues and fixed them
- As an automation consultant, Gathered requirements for processes that need to be automated.
- Developed Technical Solution Design with Diagrams for the processes that need to be automated.
- Used Blue Prism tool (low code tool) to automate the processes.
- Moved the developed automated solutions from DEV -> ETE -> QA -> Prod.

**Jabs Solutions FZC • 2015 - 2018**

**Islamabad, Pakistan**

**Junior Java Developer**

- Provided L3 developer support for an e-commerce application.
- Identified production and non-production issues and fixed them.
- Recommended changes to improve the code.
- Created an HR Management application using Spring Framework, incorporating Spring MVC for web functionality, Spring Security for access control, and Spring JDBC for database interaction.

**PROJECTS**

---

**RAAS (Radius Authentication Authorization Service) • 2023 - Present**

Emumba

Designed and managed core authentication, certificate management, and automation workflows for a FreeRADIUS-based authentication service. Integrated Identity Providers, Kafka-based data sync, and automated server deployment.

**NGLIS • 2021 - 2023**

siParadigm Pvt Ltd

Contributed to system architecture, developed core modules in Spring Boot and a custom API Gateway, integrated reporting, and automated deployments using Docker, Kubernetes, and Helm.

**Tiger • 2019 - 2021**

siParadigm Pvt Ltd

Provided end-to-end technical support (L1–L3), implemented stakeholder-driven features, enabled COVID-19 test case management (2000+ cases/day), and integrated Zoho ticketing for improved user experience.

**NedBank CIB RPA Extension (BluePrism) • 2018 - 2019**

IBM

Gathered requirements, authored PDDs (Process Design Documents) and SDDs (Solution Design Documents), designed process workflows in Blue Prism, and deployed automation bots across E2E, QA, and Production environments.

**OneView • 2017 - 2018**

IBM

Provided L3 technical support and implemented new features in the Incident Management Application. Developed REST services for tools integration and migrated functionalities from Perl to Java.

**Automation of Kissan (Farmer) Web Portal • 2018 - 2018**

IBM

Created technical solution design documents, designed Blue Prism workflows, and deployed automated processes in UAT and production environments.

### **E-commerce Solution (Hybris) • 2015 - 2018**

Jabs Solutions FZC

- Provided L3 technical support and issue resolution for the Hybris e-commerce platform, collaborated with senior developers, and delivered training sessions for new team members.

### **HRM (Human Resource Management Solution) • 2016 - 2016**

Jabs Solutions FZC

Contributed to the development of HRM solution modules, including Employee, Asset, Leave Management, and News Feed modules, improving data management and organizational communication.
